

# Philippians 2:5-11

## The mind of Christ - our example

The Hymn is one of the two keys to the understanding of Philippians. In every paragraph from 1:12-4:20 we find this movement of voluntary serving (giving up, renouncing), and afterwards the intervention of God (exalting, blessing, working). So the Hymn is definitely radiating into all the paragraphs and is thus the center of content.
