

Philippians Application

1. On the back of one chart, write out something very practical that you can do to humble yourself or an act of service for someone else. Plan it out. This is not something that will draw a compliment from that person, but should rather be something done in secret.

(the aim is to get the focus off of you and on to serving someone else).

2. Actually **DO** what you have set out as a goal of service (maybe this can be done over the weekend).

**This will be in place of your normal application of a timeless truth.
